

✅ CORE IDEA

This system has **3 roles**:

1. **Main Doctor (Owner / Controller)**
2. **Doctors (Work under Main Doctor)**
3. **Patients (Only request + view history)**

And the biggest rule is:

🚫 **Doctors should NOT communicate doctor-to-doctor directly**

Everything must go through **Main Doctor**, so the hospital stays in control.

1 DASHBOARD (Hospital Analytics)

Owner wants:

📌 **Revenue + Expenditure + Tasks**

Dashboard shows:

- Total Revenue
- Total Expenses
- Profit/Loss
- Patient Count
- Doctor Activity
- Appointments
- Pending Referrals
- Pending Requests

Download Reports:

- Monthly Revenue Report (PDF)
- Expense Breakdown
- Doctor-wise Patient Stats

2 MAIN DOCTOR PANEL (The Boss Panel)

This is the heart of the system.

Main Doctor Home Page Contains:

✓ Doctor List (Cards UI)

Each doctor card:

- Doctor Name
 - ➡ Click Doctor → opens Doctor Profile
-

Doctor Profile View:

Shows:

Patients handled:

- Currently Treating
- Treated Patients

Displayed like:

- **P1 → short description**
- **P2 → short description**

Click Patient → Full Detail Page

Patient Detail Includes:

- Full Medical History
 - Reports Attached (PDFs, scans)
 - Referral history:
 - Who referred
 - When referred
 - To which doctor
 - Appointment timeline
-

Referral Control System

If Doctor 1 wants to refer Patient to Doctor 2:

🚫 It should NOT go directly.

Flow:

Doctor → Referral Request → Main Doctor → Approve/Reject → Then Doctor 2 receives it.

Patient Communication Window System

Patients cannot spam doctors.

Patient can only send a "Token Request"

Main Doctor decides:

- Accept request
- Schedule 30 min window

After 30 mins:

- Chat freezes automatically

Main Doctor also has:

- Freeze anytime manually

Same applies for:

- Video Call
 - Chat Window
-

Extra Buttons on MD Panel

A) Social Media

Main Doctor can post:

- Blogs
- Text Updates
- YouTube Videos
- Instagram-style posts

Others can ONLY view.

B) MD LaunchPAD (Entrepreneur Corner)

Doctors/Patients can submit ideas via form.

Form includes:

- Idea Title
- Description
- Domain
- Contact Info

Main Doctor receives submission → decides whether to respond.

3 DOCTOR PANEL

Doctor page is simpler.

Top Bar:

- Doctor Name
 - Social Media Button (View Only)
 - LaunchPad Button (Submit Form Only)
-

Doctor Actions:

+ Add Patient Button

Doctor can add new patient under them.

Refer Patient Button

Referral must go via Main Doctor.

Main Screen:

Full Patient List:

- P1 → Description
- P2 → Description

Click Patient → Patient Detail Page:

- Health history
- Reports
- Past appointments
- Referral status

PATIENT PANEL

Patient is mostly read-only + request based.

Top:

- Logo
 - Name
 - Age
 - Social Media (View)
 - LaunchPad (Submit Form)
-

Main Screen:

Complete Patient History:

- Which doctor visited
 - When
 - Treatment notes
 - Reports attached
 - Referral chain
-

Contact Main Doctor Button

Patient can request:

- Chat window
- Video call

Only through Token System.
